

HNS W SERIES 1 THE FINNISH BULLETPROOF WINDOW

REVOLUTIONIZINGLY LIGHT AND THIN Cut costs in installation!

The HNS W Series 1 is more than 60 kg lighter per 1 m² compared to competing products.

The L-Profile and glass together weigh only 119 kg. The T-Profile version weighs just under 127 kg.

Our frame is only 70 mm thick—about 20 mm thinner than comparable designs

“You can also choose an insulated cassette, achieving a U-value of 1.43.

CERTIFICATION

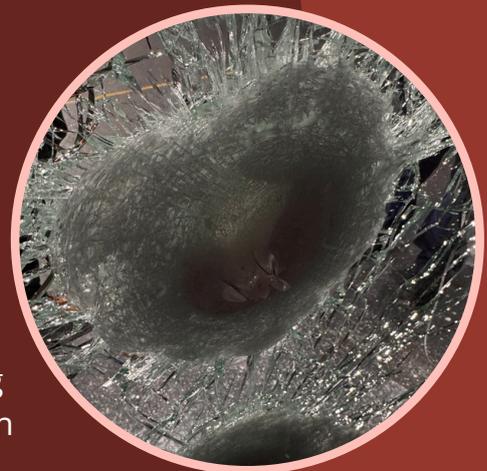

- EN 1627 RC4
- EN 1522-1523 FB6
- EN 1063 BR6NS
- NATO STANAG 4569 Level 1 – Kinetic Energy

WHY CHOOSE HNS W SERIES 1?

Our window element is manufactured in Finland according to the highest quality standards, ensuring a product we can truly be proud of.

All raw materials are sourced from EU NATO countries to guarantee strategic supply security that is not affected by U.S. tariff policies or pressure from major global powers.

Our product is tested and certified in accredited and respected European laboratories.
